

WOODMEN TO MEET AT SILVERTON

Will Have a Grand Gathering Initiate Fifty Members, and Have a Big Ball

The members of Pine Camp, W. O. W., at Silverton, will dedicate their new hall Saturday, July 14, and the festivities in connection with the same will be of great interest to Woodmen, as well as to outsiders.

The hall is conceded to be the best in the state. Though not of such large dimensions as some, it excels in beauty and convenience. It is a two story building, 40 by 75, and contains a large lodge room, hall, ante-room and reception rooms. There is also a banquet hall and kitchen. The walls of the rooms are finished in wainscoting and wood fiber and are indeed beautiful.

The program arranged will be most interesting, and will last all day. At 10:30 there will be a fine street parade, headed by the Lewisburg Woodman band, and led by two uniform rank companies and the two Circle drill teams, followed by various other delegates. After the march there will be athletic sports, games and contests, and a basket dinner, to which all are invited to come and bring their dinner.

At 1:00 o'clock in the afternoon will occur the dedicatory services, when addresses will be made by Head Banker P. E. Snodgrass of Eugene, Hon. Walter L. Toomey and State Organizer Harry L. Day of Portland. Following this there will be a fancy drill by the Silver Bell Circle of Salem.

Another feature of the afternoon program, will be a mounted drill by First Battery, Field Artillery of Portland. The initiatory services will be

held at 7:30 in the evening and the degree work will be under the supervision of the Salem camp. There will be over fifty candidates to be initiated.

During the progress of the degree work there will be a fine program given by the Circle ladies. The last feature of the day will be the grand ball, which will be a fitting close to the day's festivities.

The Woodmen corner lands of various towns will be present, and make music throughout the day.

Thin People.

Thin, scrawny, fleshless people are usually nervous, irritable, bilious and dyspeptic. Every change of weather affects them; if they happen to eat or drink anything containing disease germs, it develops at once, and they are the first subjects of any contagious disease coming in the neighborhood. Their life is a continual worry in their efforts to avoid exposure to damp and malarial atmosphere. People can gain from one to three pounds of solid healthy flesh per week by the use of Dr. Gunn's Blood and Nerve Tonic. It puts their system in condition to resist sickness. This Tonic is in tablet form, to be taken right after meals. Sold by all druggists for 75c per box or three boxes for \$2. It turns the food you eat into strong rich blood. This prevents and cures disease. People tell us who have used the Tonic that it cures them, then keeps them from getting sick afterward.

Men Wanted.

Sawmill and lumber yard laborers, \$2.25 per day. Woodsmen, \$2.25 to \$3.00. Steady work. Apply to Booth-Kelly Lumber Co., Eugene, Or. 5-23-tf

Boil Drinking Water.

While the work of enlarging the filtering system is in progress it would be better for all to boil their drinking water. The progress of the work will be noted in this paper. 5-19-tf.

FOR A GRAND FAIR

President Downing in Eastern Oregon to Stir up the Bunch Grass Counties

W. H. Downing, president of the state board of agriculture, accompanied by Mrs. Downing, left yesterday afternoon for Eastern Oregon in the interests of the state fair. He will go to the The Dalles, Baker City, Pendleton and La Grande and will confer with the authorities of the various counties. But few, if any, of the Eastern Oregon counties have ever had exhibits at the state fair.

For some reason the people of Eastern Oregon have failed to grasp the opportunity of advertising their counties through the state fair as a publicity medium. The Oregon state fair is not a Marion county affair but a state-wide enterprise.

There is considerable interest taken in the exhibits by the counties of the western part of Oregon, even on the part of those who have never participated before. President Downing believes the coming fair will be a success in spite of the fact that many of the counties made large appropriations for the Lewis and Clark exposition last year and do not feel they can be represented very extensively at the state fair.

As to attendance, the fair promises to be a record-breaker, as many inquiries are already coming in at the headquarters.

Mr. Downing expects to return Saturday. Mrs. Downing will visit in The Dalles while her husband travels to other parts.

Mark Twain's Opinion of Howells.

In the matter of verbal exactness, Mr. Howells has no superior, I suppose. He seems to be almost always able to find that elusive and shifty grain of gold the right word. Others have to put up with approximations, more or less frequently; he has better luck. To me, the others are miners working with goldpan—of necessity some of the gold washes over and escapes; whereas in my fancy, he is quicksilver sliding down a riddle—no grain of the metal stands chance of eluding him. A powerful agent is the right word. It lights the reader's way and makes it plain, a close approximation to it will answer, and much traveling is done in a well-enough fashion by itself. But we do not welcome it and applaud it and rejoice in it as we do when the right one blazes out on us. Whenever we come upon one of those intensely right words in a book or newspaper, the resulting effect is physical as well as spiritual, and electrically prompt. It tingles exquisitely around through the walls of the mouth, and tastes as tart and crisp and good as the autumn butter that creams the sunberrry. One has no time to examine the word and vote upon its rank and standing, the automatic recognition of its supremacy is so immediate. There is a plenty of acceptable literature which deals largely in approximations, but it may be likened to a fine landscape seen through the rain; the right word would dismiss the rain, then you would see it better. It doesn't rain when Howells is at work. —Mark Twain in Harper's Magazine for July.

BIGGEST BABY IN WORLD.

Thirteen Months Old Infant on Staten Island Weighs Seventy-One Pounds.

Multiply by three the love, solicitude and duties lavished by the average mother on the average babe, and Mrs. Randolph Sherwell of Bloomfield, Staten Island, says the maternal mind can grasp what the presence of Ethel Shotwell, aged thirteen months, means in her household. This is because baby Ethel is three times larger than most children at her age. So far as is known she is today the largest baby of thirteen months in the world.

Here are some of the baby's measurements:

Body measure, 33 inches.

Arm above the elbow, 10 inches. Half way between elbow and wrist, 8 inches. Thigh measure, 18 inches. Around the knee, 12 inches. At the ankle, 6 inches. Height, 36 inches. Weight, 71 pounds.

Little Ethel is quite as remarkable for baby brightness and good nature as she is for her size. Her head, feet and hands are well proportioned. Her dark eyes are more often sparkling with laughter than filled with tears. She has never been ill. Mrs. Shotwell has also a daughter of four years of age, and so far as size is concerned, like other children, but the mother says frankly that big baby Ethel occupies a larger part of her heart.

It has been a prodigious effort to rear Ethel. No baby shoes can be found big enough to fit her. Three yards of cloth are necessary to make her a dress and patterns have to be adapted for her. Mrs. Shotwell says mothers who have had to carry around in their arms heavy babies can appreciate her joys now that she has obtained a go-cart.

A Pleasant Way to Travel

The above is the usual verdict of the traveler using the Missouri Pacific railway between the Pacific coast and the east, and we believe that the service and accommodations given merit this statement. From Denver, Colorado Springs and Denver there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up-to-date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going east or south, write for particulars and full information.

The Destruction of San Francisco

BY EARTHQUAKE AND FIRE

By Charles Eugene Banks and Opie Read

Special :: Memorial :: Volume

This edition will be eagerly sought after by millions of Americans who have demonstrated their sympathy in a substantial manner by cheerfully answering the call of the stricken, and giving money, food and clothing with a generosity truly American. Every city, town and village throughout the land is stretching forth its hands to help those in distress. Human hearts are beating today in every hamlet in the world for friends or relatives dead or dying in the ruins.

There never was a time in the history of the world when all eyes were turned to one city, as now they are toward the once great city of San Francisco.

Interest is at fever heat and there is a demand for this book, by all people, that makes it a duty and an honor to be the means of bringing it to them.

This book tells, by pen and picture, the detailed story as gathered by writers on the grounds, of the awful calamity that befell San Francisco and the smaller cities of the Pacific coast, leaving hundreds of thousands homeless and at the mercy of their fellow men; of the loss of life and the destruction of property; the story of the disaster as told by the survivors; fighting fire with dynamite; murder and pillage by ghouls; food and water famine; army guarding survivors under martial law; the ride and noose the fate of ghouls; burial alive in tombs of fire; a city turned into an inferno of furnaces; hundreds of human beings; sympathy of nations; relief work of our people; contributions for the suffering from individuals, cities and congress; a nation's sympathy aroused.

The Whole Story of the Disaster
